Comments

In May we tried something different in this chapter. We arranged to have an on-line, webex delivery of the DOT workshop through Dade Moeller Radiation Safety Academy. It was a first for the
chapter and Dade Moeller, apparently. Since we didn’t have the response to an on-ground meeting needed to get people in as we did 2 years ago, we decided to try something else. We are evaluating the results now with an eye to sponsoring short chapter meetings using technology so that we can increase participation by HPs in the chapter geographic region in between on-ground meetings in the region. The next on Ground meeting will be in October, 2012, in the KC metro area. It is a joint meeting with the Missouri Valley Society of Nuclear Medicine. The Chapter is providing a radiation safety track for the SNM group. This is a first collaboration for these two regional professional societies. The President-Elect (Dr. Fisher) was kind enough to say he would be a plenary speaker for the meeting. Is any other chapter exploring this type of option for short get-togethers? We would be interested in comparing notes.
