Comments

Our good intentions concerning online meetings for 2018-2019 are just that. The President was on sabbatical out of the country, and this made planning for online sponsorship especially difficult for the group to arrange any updating in administration.

Every other year a "Radiation Safety Roundtable" open to regional and national attendees is organized by a person affiliated with the chapter. It has been held in the Kansas City metro area,

during the "traditional" time for the chapter annual meeting. This was the year for that event. We can't see asking our chapter members to come to two on-ground meetings in the year, so that is where we stand right now. Many people who were active members of the chapter attend that, but it doesn't cover all of the subspecialties present in the chapter membership.

Has the Society any template language developed for counting on-line/conference call chapter meetings as "meetings" or are we ending up drafting something for national to review?

Thank you !
