Attendance: 28

Comments

A chapter member coordinated acquisition of Civil Defense CDV-700 Meters for the Science Teachers Association of NY State; operating information was provided and a standing offer was made for instructional presentations. First presentation will likely be during their Fall conference (October 2012).

The chapter continues to effort to sustain and increase membership.

It is anticipated that opportunities to partner with local ANS chapter and local colleges/universities will be available. We work to have at least one combined meeting with the ANS chapter every year and share information on all other meetings.

This Chapter report was created on 6 August 2012 by Jerry Collins.
