Comments

After five trials at entering data for 2010 - 2011 year meetings and being told every time that blanks or numbers were required for meetings which had been blanked out, then having the data reset to the original, I stopped entering any data at all. All meeting data has been blanked out. Any Board Member is more than welcome to try to enter data. I will supply separately

any data any Board Member wishes, however I will not do this trickery more than one time in the future. Contact my Chapter President - if you can figure out from this data who that is.
