Comments

1 - The Virginia Chapter submitted a nominee for the HPS Science Student Award in May 2011. The nominee is Gautam Kanumuru of Briar Woods High School (Ashburn, VA), his research project title is "The Effects of Ultraviolet Radiation on Population Shifts." Gautman is a science research student of Ms. Donna Armani, a 2005 HPS Outstanding Science Teacher Award winner. Notification of his being selected for the HPS Science Student Award was received from the HPS Awards Committee in June 2011. 2 - The Virginia Chapter continued with preliminary discussions with the faculty and administration of the Central Virginia Community College (CVCC) in Lynchburg, VA concerning the formation of a Student HPS Chapter. A draft Constitution for the CVCC Student Chapter has been prepared and undergone several rounds of review. A Letter of Intent to start a Student Chapter was prepared and provided for HPS comment and review at the 2010 HPS Annual Meeting in Salt Lake City. Support for the Student Chapter has been obtained from CVCC staff. The extensive efforts of Carl Tarantino have been instrumental in this effort and are greatly appreciated. 3 - The Virginia Chapter requests that the HPS Board of Directors evaluate the possibility of the HPS providing the electronic means for paying Chapter dues when paying their HPS annual and Section dues. We note that the American Nuclear Society and the American Industrial Hygiene

Association provide this service to their membership. The Board's review of this suggestion is appreciated.
