

#### Biographical Sketch—James C. Liu

James C. Liu grew up in Taiwan and received his bachelor's degree in nuclear engineering in 1979 and master's degree in health physics in 1983 from the National Tsinghua University. He received his Ph.D. in nuclear engineering/health physics from Texas A&M University in 1989. James has been working as a radiation/health physicist at the Radiation Protection Department of the Stanford Linear Accelerator Center in California since 1989 and is responsible for the radiation safety design and operations for SLAC accelerators, such as PEP-II and SSRL. He is also the Dosimetry and Radiological Environmental Protection Group Leader. James is a certified health physicist. He has been active in the Health Physics Society (HPS) and was the president of the Accelerator Section of HPS and the co-chair of the ANSI N43.1 Standard Committee. James has written many papers and presentations.
